India's Tata Power Renewable handed LoA for 200-MW solar project

Tata Power Renewable Energy Limited (TPREL), a unit of Indian electric utility Tata Power Co Ltd (BOM:500400), has won a bid to construct a 200-MW solar PV farm in Solapur in the state of Maharashtra.

The renewables developer said on Tuesday it had received a Letter of Award (LoA) from Maharashtra State Electricity Distribution Company Limited (MSEDCL) to move forward with the project. It said it had been awarded the project through competitive bidding, followed by a reverse e-auction.

Tata Power Renewable Energy to set up 200 MW solar project in Maharashtra

Tata Power Renewable Energy Ltd (TPREL) on Tuesday said it has received a letter of award from MSEDCL to set up a 200 MW solar project in Solapur, Maharashtra. The letter of award has been received from the Maharashtra State Electricity Distribution Company Limited (MSEDCL). The project will be commissioned within 18 months from the PPA (Power Purchase Agreement) execution date. The project was awarded through competitive bidding, followed by a reverse e-auction, TPREL said in a statement. The installation will reduce around 432.94 million kg of CO2 emissions annually and will be one of the most substantial solar PV projects. We have a current countrywide portfolio of more than 6.5 GW (gigawatt). This project will further strengthen our position as a leader in providing clean and reliable power in the state for years to come, Ashish Khanna, CEO of TPREL, said. TPREL is a wholly-owned subsidiary of Tata Power.
