New Delhi [India], May 10 (ANI/PNN): TP Solar Limited, a wholly owned subsidiary of Tata Power Renewable Energy Limited (TPREL), is holding its first ever virtual walk-in drive for recruitment in manufacturing roles in its 4 GW plant at Tirunelveli, Tamil Nadu. This is a one-of-a-kind opportunity to work in one of India's largest solar manufacturing plants, which will generate 4 GW of solar cells and modules annually. TP Solar Ltd. provides diversified career opportunities for those who want to contribute to creating a greener future.

Interested candidates can visit the link at <http://surl.li/gxdhj> and register themselves. The last date to submit applications is May 12, 2023. TP Solar Limited will shortlist applicants based on the submitted information and notify the eligible candidates.

Candidates from various industries, such as pharmaceutical, automobile, semi-conductor, and chemical, may also apply. TP Solar Limited is committed to building a diverse and inclusive workforce, creating opportunities for women to lead the green energy transition through its focus on safety, supporting life-stage transition, learning and growth opportunities, and promoting overall health and wellbeing.

Tata Power Renewable Energy Limited ("TPREL") is a subsidiary of The Tata Power Company Limited and is one of the country's most significant renewable energy players. TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock (RTC), peak, floating solar, and storage systems including battery storage) that it owns, operates, and maintains. It also offers comprehensive green energy solutions for rural and urban areas like turnkey, EPC and O&M solutions for various business segments like utility-scale projects, solar rooftop, and solar pump systems. Along with its extensive portfolio of renewable solutions, it has a state-of-the-art solar cell and module manufacturing plant of 1.2GW in Bengaluru and plans to set up a Greenfield 4 GW solar cell and 4 GW solar module plant. In addition, TPREL also provides electric vehicle (EV) charging solutions across various segments and other advisory solutions across the renewable sector.

As on date, TPREL's total renewable utility capacity is 6,572 MW including 2,654 MW projects under various stages of implementation and its operational capacity is 3,918 MW, which includes 2,990 MW solar and 928 MW wind. Presently, the company's solar EPC portfolio is more than 11.5GWp of ground-mount utility-scale, over 1.6GW of rooftop and distributed ground-mounted systems, and over 97,000 solar water pumps. TPREL aims to provide energy access to millions of people across the country via its integrated green energy solutions.

TP Solar Limited organizes its first ever virtual walk-in interview drive

📅 May 10, 2023

New Delhi [India], May 10 (ANI/PNN): TP Solar Limited, a wholly owned subsidiary of Tata Power Renewable Energy Limited (TPREL), is holding its first ever virtual walk-in drive for recruitment in manufacturing roles in its 4 GW plant at Tirunelveli, Tamil Nadu. This is a one-of-a-kind opportunity to work in one of India's largest solar manufacturing plants, which will generate 4 GW of solar cells and modules annually. TP Solar Ltd. provides diversified career opportunities for those who want to contribute to creating a greener future. Interested candidates can visit the link at <http://surl.li/gxdhj> and register themselves. The last date to submit applications is May 12, 2023. TP Solar Limited will shortlist applicants based on the submitted information and notify the eligible candidates. Candidates from various industries, such as pharmaceutical, automobile, semi-conductor, and chemical, may also apply.

TP Solar Limited is committed to building a diverse and inclusive workforce, creating opportunities for women to lead the green energy transition through its focus on safety, supporting life-stage transition, learning and growth opportunities, and promoting overall health and wellbeing.

Tata Power Renewable Energy Limited ("TPREL") is a subsidiary of The Tata Power Company Limited and is one of the country's most significant renewable energy players. TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock (RTC), peak, floating solar, and storage systems including battery storage) that it owns, operates, and maintains. It also offers comprehensive green energy solutions for rural and urban areas like turnkey, EPC and O&M solutions for various business segments like utility-scale projects, solar rooftop, and solar pump systems. Along with its extensive portfolio of renewable solutions, it has a state-of-the-art solar cell and module manufacturing plant of 1.2GW in Bengaluru and plans to set up a Greenfield 4 GW solar cell and 4 GW solar module plant. In addition, TPREL also provides electric vehicle (EV) charging solutions across various segments and other advisory solutions across the renewable sector.

Indian rupee gains momentum
currency in 18 countries

New Delhi [India], May 11 (ANI/PNN) many of the 'Global South' countries smooth or linear for the past hundred years. The shackles of colonization for many of these countries are half done. The rest required careful planning and investment in the right sectors to survive and thrive. China and Singapore are excellent examples of countries that have gone above, where the former has lifted itself out of poverty and the latter is a prime example of a country that has gone through a similar 'Hero's Journey' to independence. In less than 80 years, both have overcome major hurdles such as having the Indian Rupee used as a unit of exchange in over 18 countries around the world.

Generating green job opportunities nationally in the renewable manufacturing sector

New Delhi (India), May 11: TP Solar Limited, a wholly owned subsidiary of Tata Power Renewable Energy Limited (TPREL), is holding its first ever virtual walk-in drive for recruitment in manufacturing roles in its 4 GW plant at Tirunelveli, Tamil Nadu. This is a one-of-a-kind opportunity to work in one of India's largest solar manufacturing plants, which will generate 4 GW of solar cells and modules annually. TP Solar Ltd. provides diversified career opportunities for those who want to contribute to creating a greener future.

Interested candidates can visit the link at <http://surl.li/gxdhj> and register themselves. The last date to submit applications is May 12, 2023. TP Solar Limited will shortlist applicants based on the submitted information and notify the eligible candidates. Candidates from various industries, such as pharmaceutical, automobile, semi-conductor, and chemical, may also apply.

TP Solar Limited is committed to building a diverse and inclusive workforce, creating opportunities for women to lead the green energy transition through its focus on safety, supporting life-stage transition, learning and growth opportunities, and promoting overall health and wellbeing.

TP Solar Limited organises its first ever virtual walk-in interview drive

CHENNAI: TP Solar Limited, a wholly owned subsidiary of Tata Power Renewable Energy Limited (TPREL), is holding its first ever virtual walk-in drive for recruitment in manufacturing roles in its 4 GW plant at Tirunelveli, Tamil Nadu.

This is a one-of-a-kind opportunity to work in one of India's largest solar manufacturing plants, which will generate 4 GW of solar cells and modules annually.

TP Solar Ltd. provides diversified career opportunities for those who want to contribute to creating a greener future.

Interested candidates can visit the link at <http://surl.li/gxdhj> and register themselves.

The last date to submit applications is May 12, 2023. TP Solar Limited will short-list applicants based on the submitted information and notify the eligible candidates.

Candidates from various industries, such as pharmaceutical, automobile, semiconductor, and chemical,

may also apply.

TP Solar Limited is committed to building a diverse and inclusive workforce, creating opportunities for women to lead the green energy transition through its focus on safety, supporting life-stage transition, learning and growth opportunities, and promoting overall health and wellbeing.

Tata Power Renewable Energy Limited ("TPREL") is a subsidiary of The Tata Power Company Limited and is one of the country's most significant renewable energy players.

TPREL is a developer of renewable energy projects (including solar, wind, hybrid, round-the-clock (RTC), peak, floating solar, and storage systems including battery storage) that it owns, operates, and maintains.

It also offers comprehensive green energy solutions for rural and urban areas like turnkey, EPC and O&M solutions for various business segments like utility-scale projects, solar rooftop, and solar pump systems.
