TPREL starts 110 MW solar project at Bikaner

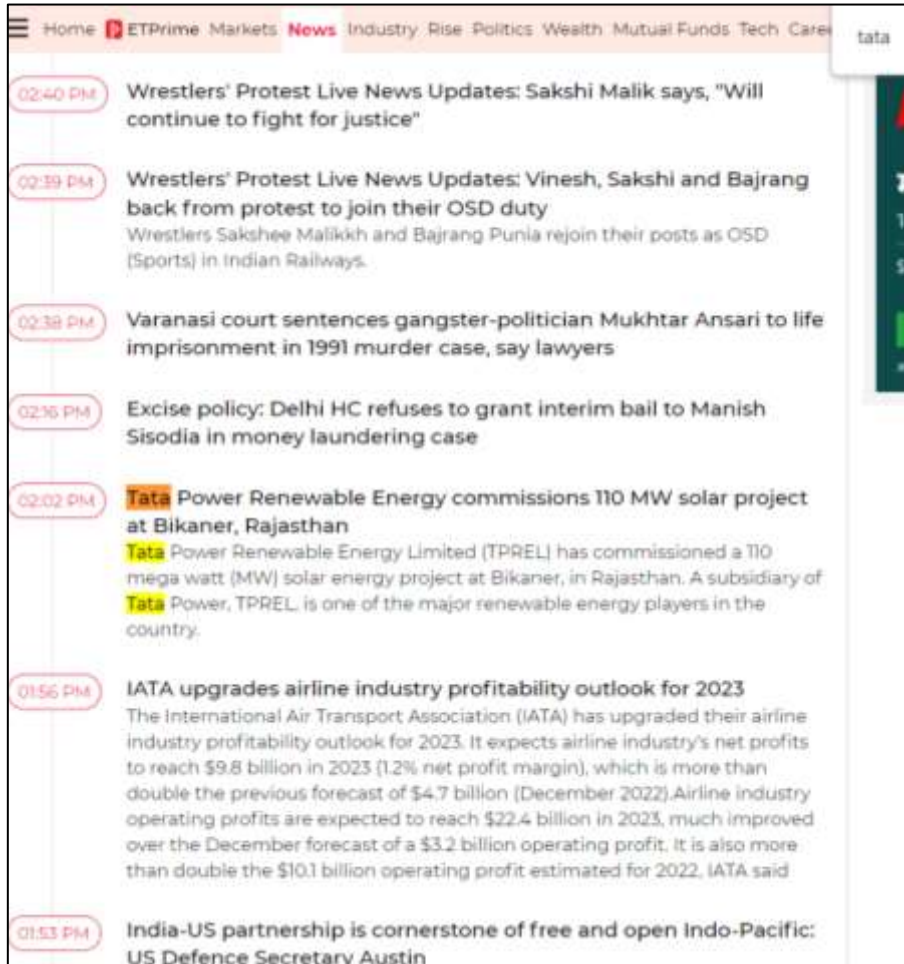

NEW DELHI: Tata Power Renewable Energy Limited (TPREL) has commissioned a 110 mega watt (MW) solar energy project at Bikaner, in Rajasthan. A subsidiary of Tata Power, TPREL, is one of the major renewable energy players in the country. "TPREL has commissioned a 110MW solar power project in Bikaner, Rajasthan. The project will supply 110 MW green power to the Kerala State Electricity Board (KSEB)," Tata Power said in a statement on Monday. The project is expected to generate approximately 211 million units (MU) of green electricity and reduce 2,58,257 metric tonne (MT) carbon footprint annually. According to the company, "the project has used 2,59,272 mono bifacial PERC half-cell modules. It was completed within 7 months despite various challenges including adverse weather conditions, temperatures touching 50+ degrees, the coldest of winters and sandstorms, along with adverse geopolitical challenges."

Tata Power Renewable Energy Limited commissions 110 MW solar power project for Kerala State Electricity State Board - EQ Mag

Project to supply 110MW of green power to the state

Tata Power Renewable Energy Limited (TPREL), a subsidiary of the Tata Power Company Limited and one of the major renewable energy players in the country, has commissioned a 110 MW solar power project in Sikaner, Kollam. The project will supply 110 MW of green power to the Kerala State Electricity Board.

The project is expected to generate approximately 211 MU (million units) and reduce a 238,257 MT (metric tonnes) carbon footprint annually.

The project has used 2,58,272 mono bifacial PERC half-cell modules, in spite of the various challenges such as tough land topography, extreme weather conditions, temperatures touching 50+ degrees, the coldest of winters and sandstorms, along with adverse geopolitical challenges, the project was completed within a stipulated period of 7 months.

This project is one of the fastest commissioned projects in Kollam, backed by a skilled team, cutting-edge technology, and experienced leadership.

Speaking on the project commissioning, **Mr. Rajesh Khanna, CEO, Tata Power Renewable Energy Limited**, said, "This 110MW solar power project will help meet the green energy requirements of the state of Kerala. The commissioning of such big projects within stipulated time frame reaffirms Tata Power Renewable's commitment of making substantial contribution towards the green energy transition in the country."

With this installation, the total renewables capacity of TPREL reaches 6,785 MW with an installed capacity of 4047MW (Solar - 3,106 MW & Wind - 341 MW) and 2,747 MW under various stages of implementation.

Tata Power Renewable Energy finalises 110-MW solar project in India

Tata Power Renewable Energy Limited (TPREL) announced on Monday the commissioning of a 110-MW solar power plant in Bikaner in the Indian state of Rajasthan.

The renewables development arm of Tata Power Co Ltd (BOM:500400) said in a statement that it has had to overcome tough land topography and extreme weather conditions in order to install 259,272 mono bifacial PERC half-cell modules and complete the project within the stipulated seven-month timeframe.

The solar plant can now generate some 211 million kWh of electricity per year and

In Bikaner, Rajasthan, Tata Power Renewable Energy inaugurated a 110 MW solar facility

IBEF | June 6, 2023

A 110 megawatt (MW) solar energy facility has been put into operation by Tata Power Renewable Energy Limited (TPREL) in Bikaner, Rajasthan. One of the key companies in the nation's renewable energy market is TPREL, a Tata Power subsidiary. According to a statement by TATA Power, the project will supply 110 MW green power to the Kerala State Electricity Board (KSEB).

The project is anticipated to produce over 211 million units (MU) of green power and lessen the carbon footprint by 258,257 metric tonnes (MT) each year. The company further stated that the project has used 259,272 mono-bifacial PERC half-cell modules. It was completed within seven months despite various challenges including adverse weather conditions, temperatures touching 50+ degrees, the coldest of winters and sandstorms, along with adverse geopolitical challenges. In Rajasthan, this project is one of the fastest commissioned projects which is backed by a skilled team, cutting-edge technology, and experienced leadership.

The Chief Executive Officer (CEO) of TATA Power Renewable Energy Limited, Mr. Ashish Khanna stated that the commissioning of such big projects within a stipulated time frame reaffirms TATA Power Renewable's commitment of making substantial contributions towards the green energy transition in the country. With this installation, the total renewables capacity of TPREL reaches 6,788 MW with an installed capacity of 4,047 MW (solar 3,106 MW and wind 941 MW) and 2,741 MW under various stages of implementation.
