CLEAN ENERGY PUSH

Tata Power Green Arm Inks Deal with Anand Group

Our Bureau

Mumbai: Tata Power's renewable energy subsidiary, Tata Power Renewable Energy, has signed a group captive power delivery agreement for 4.4 MW AC with global automotive systems and parts industry leader Anand Group.

Under this agreement, Tata Power Renewable will facilitate the generation of 10 million units of clean energy through renewable sources.

The project is expected to eliminate 5,500 tonnes of carbon emissions annually, aligning with Tata Power Renewable's mission to create a greener and cleaner future for its commercial and industrial (C&I) customers.

"This group captive project highlights our commitment

The project is expected to eliminate 5,500 tonnes of carbon emissions annually

to support the automotive industry in becoming more sustainable and environmentally focussed," said Ashish Khanna, CEO, Tata Power Renewable Energy.

By leveraging the power of renewable energy sources with sustainability-focused groups such as Anand, Tata Power aims to set a precedent for other organisations to follow suit and invest in eco-friendly energy solutions.

Earlier, Tata Power and Anand Group collaborated for a 10.1 MW solar PV park power project in Maharashtra.

This approach provides cost-effective renewable energy access for multiple participants, aligning with the government's sustainability objectives.

"In the spirit of sustainable collaboration, the project marks the union of visionaries and targeted goals to develop green energy," said Rajeev Gera, president-business development & corporate materials at Anand Group.

← Tata Power Renewable Energy And ANAND Group Sign A PDA For A 4.4 MW AC Group Captive Solar Plant

29 Aug, 2023 | 2:27 PM

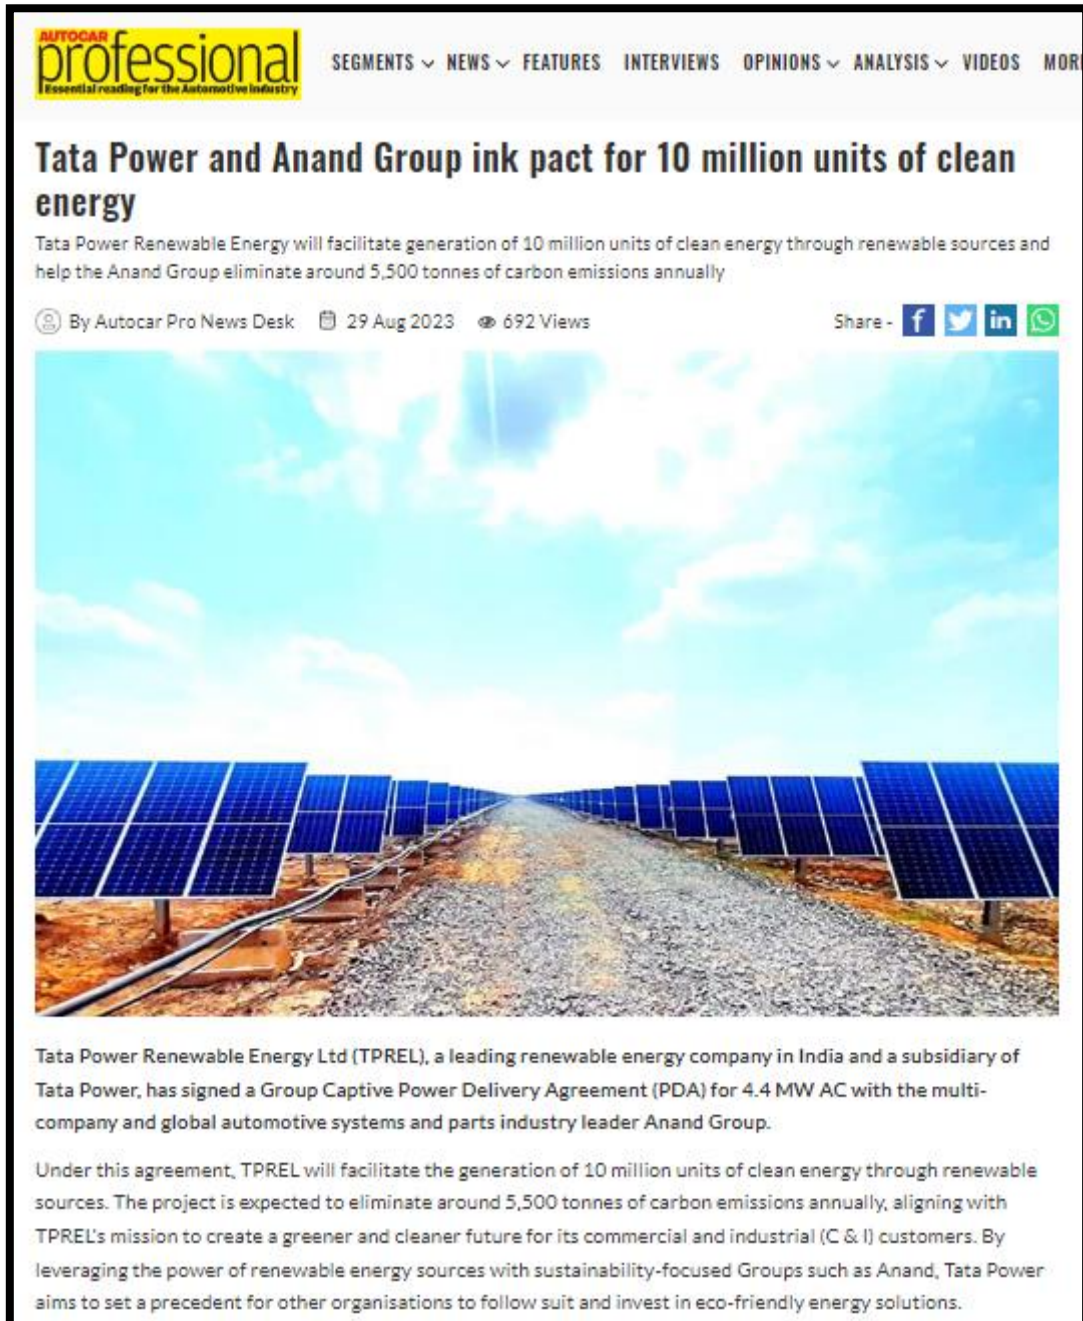

- In accordance with this contract, TPREL will assist in the production of 10 million units of clean energy from renewable sources.

Tata Power Renewable Energy Limited (TPREL), a Tata Power subsidiary, reported on Tuesday in an exchange filing that it has signed a Group Captive Power Delivery Agreement (PDA) for 4.4 MW AC with the ANAND Group, a pioneer in the automotive systems and parts industry.

In accordance with this contract, TPREL will assist in the production of 10 million units of clean energy from renewable sources. The project is anticipated to reduce annual carbon emissions by about 5500 tonnes, in line with TPREL's goal of fostering a better and cleaner future for its Commercial and Industrial (C & I) clients. By combining the strength of renewable energy sources with companies that are concerned with sustainability, like ANAND, Tata Power hopes to create a model for other businesses to follow and invest in green energy solutions.

Ashish Khanna, CEO of Tata Power Renewable Energy Limited, commented on the partnership by saying, "We are thrilled to support the ANAND Group as it embarks on its transformative journey toward sustainable energy. This group-captive project demonstrates our dedication to helping the automobile sector become more environmentally conscious and sustainable."

Tata Power and Anand Group ink pact for 10 million units of clean energy

Tata Power Renewable Energy will facilitate generation of 10 million units of clean energy through renewable sources and help the Anand Group eliminate around 5,500 tonnes of carbon emissions annually

By Autocar Pro News Desk 29 Aug 2023 692 Views Share - [Facebook] [Twitter] [LinkedIn] [WhatsApp]

Tata Power Renewable Energy Ltd (TPREL), a leading renewable energy company in India and a subsidiary of Tata Power, has signed a Group Captive Power Delivery Agreement (PDA) for 4.4 MW AC with the multi-company and global automotive systems and parts industry leader Anand Group.

Under this agreement, TPREL will facilitate the generation of 10 million units of clean energy through renewable sources. The project is expected to eliminate around 5,500 tonnes of carbon emissions annually, aligning with TPREL's mission to create a greener and cleaner future for its commercial and industrial (C & I) customers. By leveraging the power of renewable energy sources with sustainability-focused Groups such as Anand, Tata Power aims to set a precedent for other organisations to follow suit and invest in eco-friendly energy solutions.

Tata Power gains on partnering with ANAND Group for clean energy generation

Aug 29, 2023 10:36 AM | Source: capitalmarket.com

Tata Power rose 1.04% to Rs 247.55 after the company said its subsidiary, Tata Power Renewable Energy Limited (TPREL), signed a Group Captive Power Delivery Agreement (PDA) with the ANAND Group.

ANAND Group is a global leader in the automotive systems and parts industry. Under this agreement, TPREL, will help facilitate the generation of 10 million units of clean energy using renewable sources. This project aims to eliminate approximately 5500 tonnes of carbon emissions annually, aligning with TPREL's goal of creating a greener and cleaner future for its Commercial and Industrial (C & I) customers. In the past, Tata Power and the ANAND Group have collaborated on a 10.1-MW Solar PV park power project in Maharashtra, India.

✕

With this new undertaking, TPREL's total renewables capacity, including projects under various stages of implementation, reaches 7,787 MW. Its operational capacity presently stands at 4,132 MW, encompassing 3,139 MW of solar power and 993 MW of wind power.

Tata Power is one of India's largest power companies, with an installed/managed capacity of 14,324 MW. They are involved in all aspects of the power value chain, including generation, transmission & distribution, and trading.

The company's consolidated net profit jumped 29% to Rs 1,141 crore in Q1 FY24 as against Rs 884 crore reported in Q1 FY23. Revenue rose 2% YoY to Rs 15,003 crore in Q1 FY24.

Tata Power Renewable Energy Signs PDA For 4.4 MW AC Group Captive Solar Plant With Anand Group

By: Industry Outlook Team | Tuesday, 29 August 2023

A group captive power delivery agreement (PDA) for 4.4 MW AC was signed by Tata Power Renewable Energy Limited (TPREL), a Tata Power subsidiary that specialises in renewable energy, and the Anand Group, a major player in the world's automotive systems and parts market.

In accordance with this contract, TPREL will assist in the production of 10 million units of clean energy from renewable sources. In line with TPREL's objective to build a greener and cleaner future for its Commercial and Industrial (C&I) customers, the project is anticipated to reduce carbon emissions by 5500 tonnes yearly. Tata Power aspires to set an example for other businesses to follow and invest in eco-friendly energy solutions by utilising the power of renewable energy sources with sustainability-focused Groups like Anand.

"This group captive project highlights our commitment to support the automotive industry in becoming more sustainable and environmentally focused," said Ashish Khanna, CEO of TPREL. Previously, Tata Power and the Anand Group worked together on an energy project for a 10.1-MW solar PV park in Maharashtra, India. This strategy supports the government's sustainability goals by giving numerous participants access to renewable energy at an affordable price.

The project unites visionaries with specific objectives to generate green energy, according to Rajeev Gera, President of Business Development and Corporate Materials at Anand Group. Together, Tata Power Renewable and Anand Group are paving the way and establishing new standards for a future that is more environmentally friendly. TPREL's total renewable energy capacity will be 7,787 MW, comprising 3,655 MW of projects that are in various phases of development. Its operational capacity will be 4,132 MW, which will include 3,139 MW of solar and 993 MW of wind energy.

34	Biltrax Media	Tata Power arm to set up 4.4 MW solar project for ANAND Group	29 th August, 2023

The screenshot shows a news article on the Biltrax Media website. The article title is "Tata Power arm to set up 4.4 MW solar project for ANAND Group". The author is Rituja Kedare, and the date is August 30, 2023. The article includes a large image of solar panels in a field under a blue sky with clouds. The text of the article states that on Tuesday, August 29, Tata Power Renewable Energy Limited (TPREL) announced the signing of a power delivery agreement (PDA) with ANAND Group, an automotive components manufacturer, to establish a captive solar project of 4.4 MW. The article also mentions that the Tata Power subsidiary stated that, as per the agreement, it will enable the production of 10 million units of clean energy and the elimination of 5,500 tonnes of carbon emissions annually. A link is provided for "Also Read: Top 10 Upcoming Infrastructure Projects in India". The article concludes by stating that previously, Tata Power and the ANAND Group joined forces for a 10.1-MW Solar PV park power project situated in Maharashtra. Finally, it notes that TPREL's total renewables capacity is at 7,787 MW including 3,655 MW projects under various stages of implementation, with an operational capacity of 4,132 MW, which includes 3,139 MW solar and 993 MW wind.

35	Energy Portal	Tata Power Renewable Energy signs power delivery agreement with ANAND Group	29 th August, 2023

The screenshot shows the EnergyPortal.eu website interface. At the top, there is a navigation bar with the site name and a 'Sign Up' button. Below the navigation bar, a red banner contains the headline: "Tata Power Renewable Energy signs power delivery agreement with ANAND Group". The article content includes a large image of a cityscape at night with mountains in the background. Below the image, there is a short paragraph of text and a 'Disclaimer' section.

Tata Power Renewable Energy signs power delivery agreement with ANAND Group

Tata Power Renewable Energy Limited (TPREL), a subsidiary of Tata Power, has signed a group captive power delivery agreement (PCDA) with the ANAND Group, a global automotive supplier and parts industry leader. Under the agreement, TPREL will generate 10 million units of clean energy through renewable sources, aiming to eliminate 5,000 tonnes of carbon emissions annually. This move aligns with TPREL's mission to create a greener and cleaner future for its Commercial and Industrial (C & I) customers. By collaborating with sustainability-focused groups like ANAND, Tata Power hopes to set an example for other organizations to invest in eco-friendly energy solutions.

Tata Power's stock has shown impressive growth, achieving multibagger returns of 300% in just three years, while the BSE Sensex index has increased by 85%. The company's consolidated quarterly results indicate a 2% increase in net sales, a 43% increase in EBITDA, and a 29% increase in net profit (Q1FY23) compared to the same period last year.

Tata Power's order book as of June 30, 2023, stands at Rs. 17,613 crore, with a total capacity of 4,198 MW. The Rooftop Solar and Group Captive Order Book is valued at Rs. 2,091 crore.

Investors are advised to keep an eye on this Large-Cap power stock, which has demonstrated strong performance in recent years.

 August 29, 2023

Tata Power Renewable Energy Limited (TPREL), a leading renewable energy company in India and a subsidiary of Tata Power, has signed a group captive power delivery agreement (PDA) with the ANAND Group, a global automotive systems and parts industry leader. Under this agreement, TPREL will facilitate the generation of 10 million units of clean energy through renewable sources.

The project is expected to eliminate 5,500 tonnes of carbon emissions annually, aligning with TPREL's mission to create a greener and cleaner future for its Commercial and Industrial (C & I) customers. Tata Power aims to set a precedent for other organizations to follow suit and invest in eco-friendly energy solutions by leveraging the power of renewable energy sources with sustainability-focused groups such as ANAND.

Shares of Tata Power surged 0.73 per cent on Tuesday, reaching Rs 246.80 per share. Over the past three years, the stock has provided multibagger returns of 306 per cent, while the BSE Sensex Index has increased by 65 per cent.

In the Q1 FY24, Tata Power reported growth in net sales, EBITDA, and net profit compared to Q1 FY23. The company's order book as of June 30, 2023, stands at Rs 17,642 crore, with a total capacity of 4,399 MW. The Rooftop Solar and Group Captive Order Book amounts to Rs 3,504 crore.

Investors are advised to monitor this Large-Cap power stock, which has shown strong performance in recent years.
