Tata Power Renewable Energy Limited (TPREL), a leading renewable energy company in India and a subsidiary of Tata Power, signed a PDA (Power Delivery Agreement) of Group Captive Project for 6 MW AC with Chalet Hotels Limited, an owner, developer, asset manager and operator of high-end hotels, resorts and a hotel led mixed-use developer across India, the company on Friday announced through an exchange filing.

Generating Clean Energy and Reducing Carbon Emissions

The plant will generate of 13.75 million units of clean energy from renewable sources under this arrangement. It will also reduce carbon emissions by approximately 9762 tonnes per year, aligning with the common vision of both the companies to build a brighter, cleaner future for the hospitality industry.

TPREL is supporting multiple C&I consumers across the industrial spectrum - Steel, Automotive, Polymer, Hospitality, Retail, Realty, et al to harness the power of renewable energy for sustainable operations.

Tata Power Renewable and Chalet Hotels Announce Partnership to Establish 6 MW Captive Solar Plant

By Alan Caldwell

Tata Power Renewable Energy Ltd (TPREL), a subsidiary of Tata Power, has signed a Memorandum of Understanding (MoU) with Chalet Hotels Ltd to set up a 6 MW captive solar plant at one of Chalet Hotels' properties in Maharashtra, India.

Under the agreement, TPREL will design, procure, install, operate, and maintain the solar plant. The project is expected to be completed within six months of receiving the necessary regulatory approvals.

The captive solar plant will help Chalet Hotels meet a portion of its energy requirements and reduce its dependence on conventional sources of energy. It is estimated that the solar plant will generate approximately 9 million units of clean energy annually, leading to a significant reduction in carbon emissions.

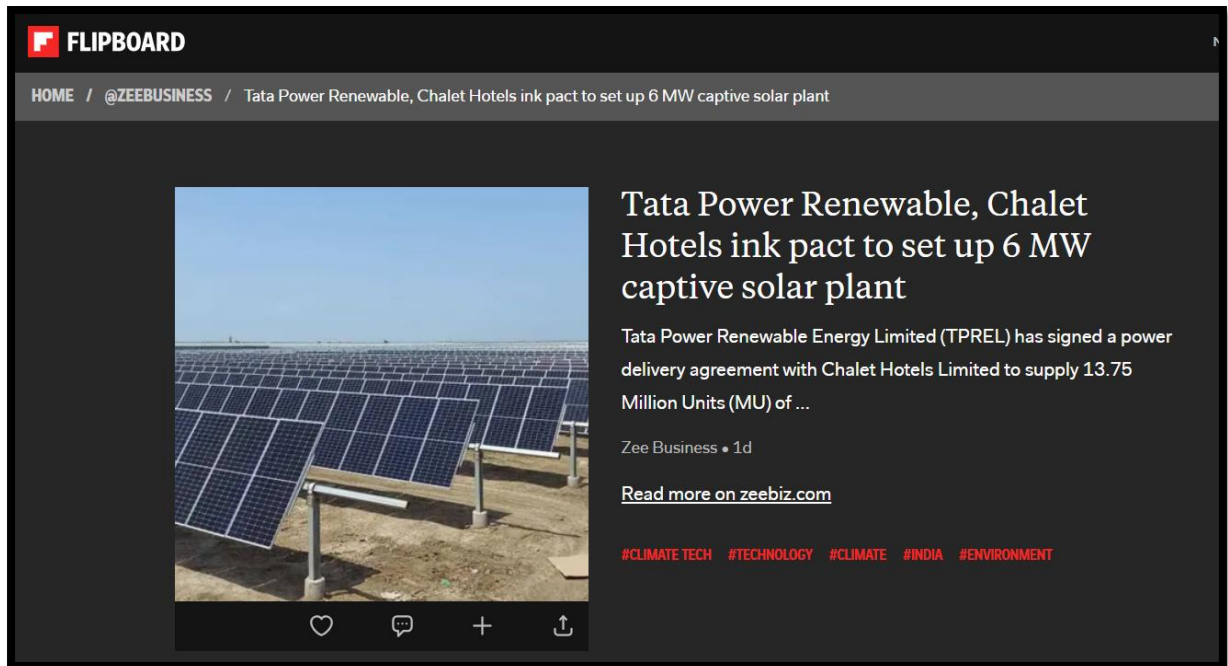

This collaboration aligns with the Indian government's target of achieving 175 GW of renewable energy capacity by 2022. It also reflects Tata Power's commitment to sustainability and its efforts to transition to cleaner forms of energy.

The partnership between Tata Power Renewable Energy Ltd and Chalet Hotels Ltd is expected to drive the adoption of renewable energy in the hospitality sector. By setting up a captive solar plant, Chalet Hotels will not only reduce its carbon footprint but also benefit from long-term cost savings.

Captive solar plants are renewable energy installations that are directly connected to a specific consumer's facility, such as a hotel or a manufacturing unit. These plants produce electricity primarily for the consumer's own consumption, helping them become self-sufficient in meeting their energy needs.

This initiative by Tata Power Renewable Energy Ltd and Chalet Hotels Ltd serves as a model for other businesses in the hospitality sector to explore clean energy alternatives and contribute to India's renewable energy goals. By adopting sustainable practices, the hospitality industry can play a significant role in mitigating climate change and promoting a greener future.

NEWS SYNOPSIS

भारत की अग्रणी नवीकरणीय ऊर्जा कंपनी और टाटा पावर कंपनी लिमिटेड Tata Power Company Limited की सहायक कंपनी टाटा पावर रिन्यूएबल एनर्जी लिमिटेड Tata Power Renewable Energy Limited ने मालिक शैलेट होटल्स लिमिटेड Chalet Hotels Limited के साथ 6 मेगावाट एसी के लिए ग्रुप कैप्टिव प्रोजेक्ट के साथ समझौता किया।

इस व्यवस्था के तहत संयंत्र नवीकरणीय स्रोतों से 13.75 मिलियन यूनिट स्वच्छ ऊर्जा उत्पन्न करेगा। यह प्रति वर्ष ~9762 टन कार्बन उत्सर्जन को भी कम करेगा, जो आतिथ्य उद्योग के लिए एक उज्ज्वल, स्वच्छ भविष्य के निर्माण के लिए दोनों कंपनियों की आम दृष्टि के अनुरूप है।

टीपीआरईएल स्थायी संचालन के लिए नवीकरणीय ऊर्जा की शक्ति का उपयोग करने के लिए औद्योगिक स्पेक्ट्रम - स्टील, ऑटोमोटिव, पोलिमर, होस्पिटैलिटी, रिटेल, रियल्टी आदि में कई सी.ई.ड.आई.उपभोक्ताओं का समर्थन कर रहा है।

Mr. Sanjay Sethi, CEO & MD, Chalet Hotels and Ms. Shweta Mathur, Head- Enterprise Business & Group Captive, Tata Power Renewable Energy Ltd.

Mumbai, India: Chalet Hotels Limited, a prominent player in the hospitality industry, is excited to announce one more significant step towards a greener and more sustainable future. Today, the company partnered with Tata Power Renewable Energy Limited (TPREL), subsidiary of Tata Power, one of India's largest integrated power companies, for pioneering a Group Captive Project.

Tata Power Renewable Energy Limited has committed to generate 13.75 million units of clean energy from renewable sources through this collaboration. This project aims to significantly reduce carbon emissions by ~9762 tonnes annually (CO2 Baseline Database for the Indian Power sector guideline), fostering a more sustainable and
