Synopsis

Tata Power Renewable Energy Ltd (TPREL) will construct a 41 MW captive solar plant in Tamil Nadu to supply electricity to TP Solar's new solar cell and module manufacturing facility. The plant will generate 101 million units of electricity and offset 72,000 metric tonnes of CO2 emissions annually. The project is expected to be completed within a year.

Tata Power Renewable Energy Ltd (TPREL), a subsidiary of The **Tata Power Company Limited**, will set up a 41 MW captive solar plant at Thoothukudi, Tamil Nadu for TP Solar's new greenfield 4.3 GW solar cell and module manufacturing facility located at Tirunelveli, Tamil Nadu.

Representative image.

The **captive plant** will help generate 101 million units of electricity and offset around 72,000 metric tonnes of CO2 emissions annually.

The author is Rutuja Kedare, and the date is Sep 28, 2023. The article features a large image of a solar farm at sunset. The text of the article states that Tata Power Renewable Energy Ltd (TPREL), a subsidiary of Tata Power Company Ltd, announced plans to build a 41-MW captive solar plant in Thoothukudi, Tamil Nadu. This project is in alignment with TP Solar Ltd (TP Solar), which is undertaking the establishment of an extensive 4.3 GW solar cell and module manufacturing facility in Tirunelveli, Tamil Nadu. The article also mentions that the solar installation is anticipated to generate a substantial 101 million units of electricity annually and reduce approximately 72,000 metric tonnes of CO2 emissions each year. To manage the development, operation, and maintenance of this facility, TPREL has established a dedicated entity called TP Govardhan Creatives Ltd. TP Solar, a subsidiary of TPREL, is on track to begin commercial production of solar cells and modules by the fiscal year 2024-2025.

New Delhi: Tata Power Renewable Energy Limited (TPREI) has declared plans to build a 41 MW captive solar power plant in Tamil Nadu. It will cater to the energy requirements of TP Solar's upcoming 4.8 GW solar cell manufacturing unit. The project is set to be located in Tuticorin.

TPREI, a subsidiary of Tata Power Company Ltd, intends to establish the 41 MW captive solar plant to support TP Solar's forthcoming 4.8 GW solar cell and module manufacturing facility in Tirunelveli. This initiative is estimated to generate 101 million units of electricity annually while reducing approximately 72,000 metric tonnes of carbon dioxide emissions.

Tata Power Renewable to build 41 MW captive solar plant for its solar cell unit in TN.

Tata Power Renewable Energy , a subsidiary of Tata Power Ltd., will establish a 41 MW captive solar plant at Thoothukudi in southern Tamil Nadu for its subsidiary TP Solar's new greenfield 4.3 GW solar cell and module manufacturing facility that is coming up at Tirunelveli.

The captive solar power unit is expected to generate 101 million units of electricity and offset around 72,000 tonnes of CO₂ emissions annually, according to the company.

The project will be commissioned in 12 months after the signing of the project development agreement.

TP Solar's solar cell manufacturing plant is expected to start commercial production by FY25. The company's proposed investment in this project is ₹3,000 crore as per the MoU signed with the Tamil Nadu government.

"Green energy supply to our state-of-the-art 4.3 GW solar cell and module manufacturing facility from the captive solar plant will act as a model for all the upcoming solar component manufacturing facilities to source green energy for their production and contribute towards the country's target of achieving 500 GW of non-fossil fuel-based energy capacity by the end of this decade," said Ashish Khanna.

Tata Power shares jump after subsidiary plans solar plant in Tamil Nadu

Sep 28, 2023 · 09:58 GMT+5:30

Shares of Tata Power Company Limited traded 2 percent higher at Rs 264 in early trade on September 28 after the company announced that its subsidiary, Tata Power Renewable Energy Limited (TPREL), will set up a 41-MW captive solar plant at Thoothukudi, Tamil Nadu.

According to a stock exchange filing by the company, this venture is in support of TP Solar Ltd (a subsidiary of TPREL), which is embarking on the development of a massive 4.3-GW solar cell and module manufacturing facility in Tirunelveli, Tamil Nadu.
