The screenshot shows the top portion of a news article on the SAUR ENERGY website. The navigation bar includes links for HOME, NEWS, RESEARCH, EV, EVENTS, and ENERGY JOBS. The article title is "TPREL Arm to Build 12.5 MW Captive Solar Plant in Maharashtra". Below the title, it says "By Saur News Bureau" and "Updated On: Tue, Oct 17th, 2023". There are social media icons for Facebook, Twitter, and LinkedIn. A "Highlights" section contains a bullet point: "The plant is estimated to generate 27.5 MUs of power; will cut the CO₂ emissions by over 9,125 tonnes/ kWh annually". At the bottom of the screenshot is a large orange graphic of the state of Maharashtra with the word "Maharashtra" written in white.

17	Energetica India	TPREL Inks PDA with Endurance Technologies to Develop 12.5 MW Captive Solar Plant	Oct 16, 2023

The screenshot shows the Energetica India website. At the top left is the Energetica logo. The navigation bar includes Home, News, Events, Articles, Interviews, Magazines, Enewsletter, Subscriptions, and Middle East. A sidebar on the left features a Jinko Solar advertisement for the Tiger Neo Series, an Energy Guide button, a Magazine button, and a Free subscription magazine button. The main content area displays a news article titled "TPREL Inks PDA with Endurance Technologies to Develop 12.5 MW Captive Solar Plant". The article text states: "The plant will be set up at Aachegaon in Maharashtra and will generate 27.5 million units (MUs) of electricity every year. This will help in reducing Endurance Technologies' carbon footprints and mitigate approximately 9,125 metric tonnes (MT) of carbon emissions annually." The article is dated October 16, 2023, and is attributed to the News Bureau.

Tata Power Renewable to set up a captive solar plant in Maharashtra

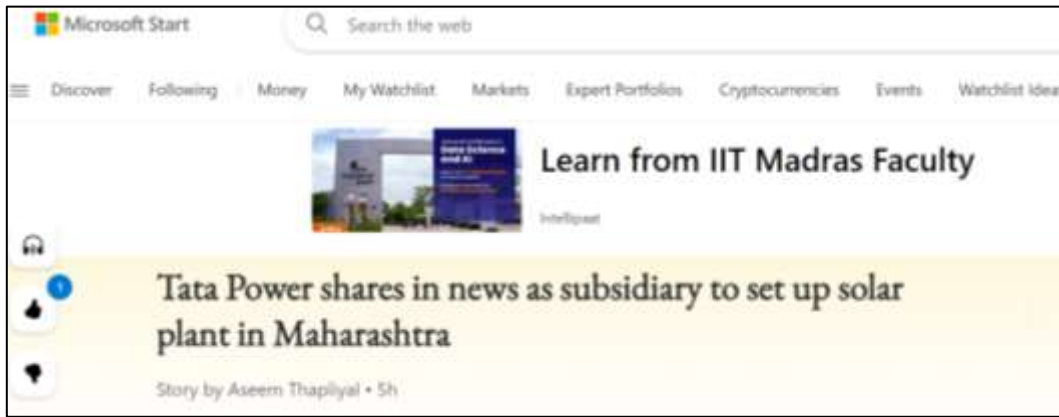

Tuesday, 17 Oct 2023

Tata Power Renewable Energy (TPREL) will set up a 12.5 MW captive solar plant at Aachegaon in Maharashtra. The wholly-owned subsidiary of Tata Power has already signed a power delivery agreement (PDA) with Endurance Technologies through a special purpose vehicle (SPV) TP Green Nature.

The plant will generate 27.5 million units (MUs) of electricity every year, and would help in mitigating carbon emissions annually. The project is expected to be completed within 12 months of the signing of the PDA.

The partnership will support Endurance Technologies, which is a leading auto component manufacturer in adopting sustainable energy solutions. TPREL will support energy-intensive businesses across multiple industries to actively adopt green energy solutions, which will finally assist in the nation's energy transition journey.

26	Good Returns	Tata Power Renewable Energy Ltd to Set Up 12.5 MW Captive Solar Plant in Maharashtra	Oct 16, 2023

The screenshot shows a news article on the 'good returns' website. The article is titled 'Tata Power Renewable Energy Ltd to Set Up 12.5 MW Captive Solar Plant in Maharashtra' and is written by Vasant Shah. It was updated on Tuesday, October 17, 2023, at 7:41 [IST]. The article text states: 'New Delhi: Tata Power Renewable Energy Ltd (TPREL) has signed an agreement with Endurance Technologies Ltd for setting up a 12.5 MW captive solar plant in Maharashtra. The plant will be set up at Aachegeon in Maharashtra and will generate 27.5 Million Units (MUs) of electricity every year.' Below the article, there is a 'JUST IN' section with a sub-headline 'FICCI Economic Survey: India's Economy In Bright Spot Globally, GDP Growth Pegged At 6.3% In FY24'. There is also an advertisement for 'ARIS QUANT FUND' with the text 'Experience the potential of data-driven investing across market capitalization.'

28	News On Project	Tata Power Renewable Energy Partners with Endurance Technologies for 12.5 MW Captive Solar Plant	Oct 16, 2023

The screenshot shows the website **newsonprojects.com** with the tagline "powering businesses with capex news". The article is titled "Tata Power Renewable Energy Partners with Endurance Technologies for 12.5 MW Captive Solar Plant" and was published on October 17, 2023. The article text states: "Tata Power Renewable Energy Limited (TPREL), a prominent player in the renewable energy sector and a subsidiary of The Tata Power Company Limited, has inked a Power Delivery Agreement (PDA) with Endurance Technologies Limited, a leading manufacturer of auto components. The agreement, facilitated through a special purpose vehicle (SPV) called TP Green Nature Limited, paves the way for the development of a 12.5MW AC Captive Solar Plant. Situated in Aachegaon, Maharashtra, the plant is expected to generate an annual yield of 27.5 million units (MUs) of electricity. This initiative aligns with Endurance Technologies' commitment to reducing its carbon footprint by mitigating approximately 9,125 metric tonnes (MT) of carbon emissions each year. The ambitious project is scheduled for completion within 12 months from the signing of the PDA."
